MARSTURBATE

Investing in the Crypto Currency Market can be a little daunting for the traditional investor, as investing directly in Crypto Currency (CC) requires the use of new tools and adopting some new concepts.

So if you do decide to dip your toes in this market, you will want to have a very good idea of what to do and what to expect.

Here's the MARSTURBATE project for the future:

=====

- 1. Marketplace*

- 2. NFT*

- 3. Donation*

- 4. App*

1. Marketplace

Business to business marketplace is an online venue worldwide where buyers and sellers come to communicate, collaborate and do business transactions.

Our main objective about this marketplace is to organize a business platform filled with features that allow members to conduct various business processes over the Internet and be able to pay premium

subscription on channels as *youporn*, *pornhub*, *chaturbate*, etc... through MRST tokens.

Morality Based Investing? It's only your Personal Choice!

It's your sex, it's you life, it's your orgasm!!!

2. NFT

Or ***non-fungible tokens***, essentially ‘digital containers’ designed to hold a one-of-a-kind priceless collectible, like an autographed pornstar card or a rare video.

They have particularly gained prominence in the art world, and they will be appreciated in the porn industry.

Within the adult industry, which has a reputation for being something of a tech early adopter adult-content creators, we have started to embrace the NFT craze, marketing their works to a small yet ardent clientele.

3. Donation

It can be easy to direct our focus to standard situations when the economy continues to work toward recovery.

However, there are still children across the globe that rely on contributions from the international community to get food, medical care, and proper living amenities.

We are going to help children across the world.

4. App

Towards the Future: The Global NFTs Porn App Development.

Marsturbate is building the Marketplace dApp to exchange all the porn NFTs and it will be released on iOS and Android version
